Worksheet #4

Assignment 4

S-i-l-l-y

Take five pictures that somehow represent the letters: s, i, l, l, y. Could be objects that start with those letters or actual letters or...?

Look for really large things and really small things to photograph and use them together.

Extra credit: Work your shots into a secondary theme. As in: things that start with the letters that also go together in sequence to tell a story.

Put your five shots into a single collage and post with a few hints.

Here is a free service for making a collage if you don't have one: <http://www.photocollage.net/>
