

Directions:

1. Print pages 1-3 on regular paper or heavier card stock. Take the printed sheets, turn them over, and print pages 4-6 on the backs.

2. Collate into a book (any order you like) and fold in half; staple or sew the spine to bind a book.

3. Now the fun part! Open your book to any “blob.” Turn the book around and around all directions, looking carefully at your blob each time. When you “see” an animal, finish with pencil, pen, colored pencils, markers, watercolor, whatever. (It’s okay if they end up upside down in your book.)

4. Repeat!

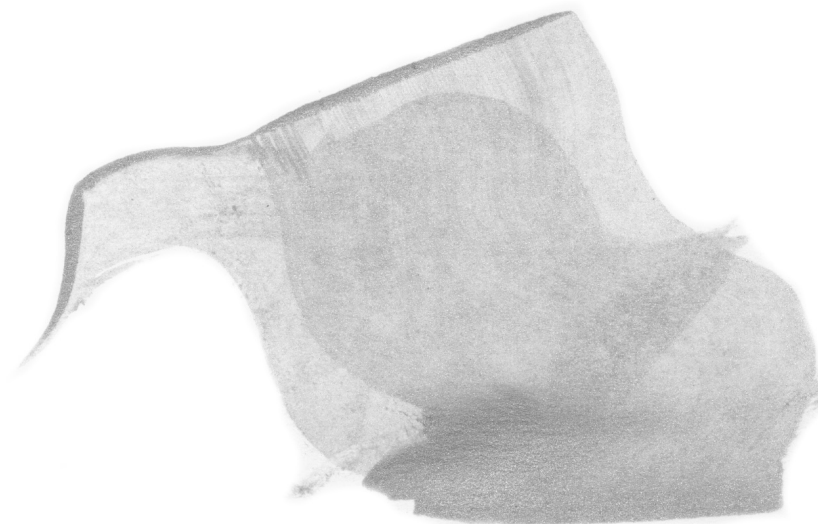

Carla Sonheim is a drawer, painter, and creator of imaginary animals and other silly stuff, including books! Visit her at:
