DRAW THIS BIRD

A ZILLION TIMES

... or for about five continuous minutes, whichever comes first. But, you have to do it one of these three ways:

1. With your non-dominant hand,
2. With your eyes closed,
3. or both!

Use the back of this worksheet when you need more space!

EXTRA CREDIT

Look closely at the birds you have drawn. See how they are all the same, but different? Even though they are similar, each one has its own unique personality! Now go to your journals (or a fresh piece of paper) and draw your OWN bird extended family. Color or paint as desired.
